Encouraging Christians to guard their hearts

June 2008

Clean Hotels

Planning a summer vacation? Don't stay in a dirty hotel. Of course we wouldn't think of staying in a hotel room that was unclean. Opening the door to a hotel room and seeing dirty linens or an unkempt bed would send us right to the hotel desk asking for a different room.

However, many of us unwittingly stay in "dirty" hotel rooms whenever we travel – hotels that feature in-room pornographic movies, essentially turning four star hotel rooms into porn shops.

Pornography is harmful to our society on so many levels. And the pornographic movies that many hotels make available through their in-room pay-per-view service often are the most explicit, degrading and destructive examples of hard core pornography.

Because pornography is

so addictive, many individuals, whose curiosity tempts them to view a pornographic movie in the privacy of their hotel room, become "hooked". An escalating cycle of pornography use begins which often wields a swath of destruction upon marriages, families, and individual lives.

"And have no fellowship with the unfruitful works of darkness, but rather reprove them."

Ephesians 5:11

Also concerning for vacationing families are reports of children turning on a hotel TV only to find a previously ordered pornographic movie in progress. The images planted on a child's mind through that one brief encounter can cause long-term harm.

The good news is that there is a tool available to help protect yourself and your family when

traveling, as well as assist in the calling we have as believers to "have no fellowship with the unfruitful works of darkness." This tool provides a listing of "clean" hotels, free of pornography.

CleanHotels.com is a network of lodging facilities that - based on some of the best research available - do not offer in-room, pornographic pay-per-view movies. The purpose of CleanHotels.com is to provide a service through which you can book a room for your vacation, business trip or meeting with the expectation that you and your family or associates will not be exposed to pornographic movies. In addition, it gives you an opportunity to be a good steward by supporting a facility that puts the well being of guests above profit gained from prurient material.

Check out <http://www.cleanhotels.com/> to make a reservation or to find out more information about this important service.

McDonald's - Funding homosexual activism

Recently American Family Association and Family Research Council have reported that McDonald's has begun financing attacks on marriage and the family as a new Corporate Partner of the National Gay and Lesbian Chamber of Commerce (NGLCC).

Here are some of the concerns regarding the NGLCC:

*** The NGLCC promotes businesses owned by homosexuals.
*** The NGLCC pushes the homosexual political agenda in statehouses, courthouses, and the halls of Congress.

Top-priority issues of the NGLCC are:

*** Thought crime ("hate crime") laws, homosexual and transgender "civil rights" preferences, and domestic partner benefits.

Richard Ellis, Vice President of Communications for McDonald's, was recently named to the

Board of Directors of the NGLCC. In a press release, the NGLCC praised Ellis for his "vast Board experience with LGBT (Lesbian, Gay, Bisexual and Transgender) and advocacy related organizations." It's alarming that the overseer of McDonald's advertising campaigns directly geared toward families will now be a leader in the NGLCC's campaign to weaken traditional values.

According to McDonald's CEO Jim Skinner, McDonald's will aggressively promote the homosexual agenda. In remarks on McDonald's web site concerning the company becoming a member of the National Gay & Lesbian Chamber of Commerce, Skinner wrote: "Being a socially responsible organization is a fundamental part of who we are. We have an obligation to use our size and resources to make a difference in the world...and we do."

Ellis was quoted as saying: "I'm thrilled to join the National Gay & Lesbian Chamber of Commerce team and ready to get to work. I share the NGLCC's passion for business growth and development within the LGBT community, and I look forward to playing

a role in moving these important initiatives forward."

"McDonald's is indeed a Corporate Partner and Organizational Ally of NGLCC. Our vice president of U.S. communications, Richard Ellis, was recently elected to its board of directors," said Heidi M. Barker, senior director of media relations for McDonald's. NGLCC describes itself as promoting the LGBT (Lesbian, Gay, Bisexual and Transgender) community first and always, including same sex marriage.

The NGLCC's efforts on behalf of homosexuality threaten the family, the definition of marriage and the very religious freedom we hold so dear.

No longer can McDonald's be trusted as a corporation that supports the family.
