Man may revile biblical truth - but God warns

By Bill Johnson

The legitimization of the sin of homosexuality and same sex marriage is being forcibly pushed as never before. Will we be able to halt it? Only as God allows. Is the unfolding of this onslaught of evil part of the natural consequence of America's backhanding of God's standards over these last generations?

Some of my earliest recollections regarding the concern relative to so-called "homosexual rights" came in the early 1990s. David Caton, then President of AFA of Florida (now Florida Family Association), was shedding light upon "Gay Days at Disney" which was being held every spring. David passionately labored, urging Disney leadership to disengage themselves from their legitimization of homosexuality. At the time, I never anticipated that this was only the be-

ginning of what was to be the societal/national tragedy it has become.

My youngest son was married on April 18. As I rejoiced in the young couple's God-ordained union, I also grieved over what they will face in our decaying culture. In my son's short lifetime, the fight to legitimize homosexuality has moved from the fringes of society to a firestorm of judicial activism, of godless tyranny running roughshod over the will of the people. As I watched David Caton do battle over Disney and homosexuality just really a few short years ago, I was and have been naive to the depths of depravity of millions whose corrupting influence has permeated the media, our schools, legislatures, courtrooms, and even some churches today.

Look at what took place last month alone. On April 3, same-sex marriage was foisted upon the people of Iowa by seven unelected, activist judges who unanimously struck down the state's 1998 Defense of Marriage Act (DOMA) in a blatant display of judicial

tyranny. Days later the Vermont legislature voted to legalize same sex marriage in that state, overriding the governor's veto.

And, the most recent example, the way in which Miss USA contestant first runner-up Carrie Prejean (Miss California) was vilified by the secular media for her answer to a question by the openly homosexual pageant judge Perez Hilton regarding legalizing same sex marriage. Miss Prejean answered: "I believe that a marriage should be between a man and a woman. No offense to anybody there. But that's how I was raised and that's how I think it should be."

Prejean stated that her answer "did cost me my crown," but said, "I wouldn't have had it any other way. I said what I feel. I stated an opinion that was true to myself, and that's all I can do. ..."

Man may revile biblical truth as expressed by Miss Prejean, but God warns, *"Woe unto them that call evil good, and good evil; that put darkness for light, and light for darkness..."* Isaiah 5:20

Man may revile biblical truth as expressed by Miss Prejean, but God warns, *"Woe unto them that call evil good, and good evil; that put darkness for light, and light for darkness..."* Isaiah 5:20

"Hate Crime" legislation no longer theoretical

When given opportunity to take a stand for Truth, will you and I boldly speak up as Carrie Prejean did, or will we be intimidated into silence?

This may soon be more than just a theoretical question in the days ahead as so-called "hate crime" legislation may very well be passed out of the U.S. Senate by the time you read this.

A bill referred to by many as thought crimes legislation, H.R. 1913, the Local Law Enforcement Hate Crimes Prevention Act of 2009, has recently passed the House of Representatives. Reported by Matt Barber, "...As has proved true in both Europe and Canada, this Orwellian piece of legislation is the direct precursor to freedom-killing and speech-chilling 'hate speech' laws. It represents a thinly veiled effort to ultimately silence – under

penalty of law – morally, medically and biblically based opposition to the homosexual lifestyle."

Under the 14th Amendment, victims of violent crime are currently afforded equal protection under the law regardless of sexual preference or proclivity. If passed, H.R. 1913 will change all that. It overtly and, most likely, unconstitutionally discriminates against millions of Americans by granting federally preferred status, time and resources to individuals who define their identity based upon aberrant sexual behaviors (i.e., 'gay' and lesbian 'sexual orientation' or cross-dressing 'gender identity'). ...

... Representative Arthur Davis (D-Alabama) admitted that the legislation could be used to prosecute pastors for merely preaching the Bible under the concept of 'inducement' to violence. ... <http://onewsnosnow.com/Perspectives/Default.aspx?id=498106>

A 'lifestyle' that God calls an abomination may now be granted a special status receiving greater protection under the law and our religious freedom may be the biggest casualty - as is already occurring.

"A Christian psychologist in Georgia lost her job because she declined to treat a lesbian. The relationship website eHarmony gave in and agreed to serve gays and lesbians in order to prevent litigation after a man accused the site of discrimination for not offering services to homosexuals. Christians in Philadelphia were locked up for singing at a public park during a homosexual street festival.

When a Christian couple running a photography studio in New Mexico decided not to provide photography services for a lesbian "commitment ceremony," they were hit with \$6,600 in fines for violating a state anti-discrimination law. A (private) Christian school has been sued for expelling two lesbian students." <http://www.humanevents.com:80/article.php?id=31680>

We see how easily moral and spiritual decline occurs when individuals, a culture, a nation, the church are not grounded upon basic things - standards of right and wrong - the authority of the Word of God.

Be salt and light. Call your U.S. Senators at 202-224-3121 and urge them not to support Hate Crimes legislation.
